

Strategic Leadership Day

Friday 18th January 2019

The new year is a great time to bring the SLT and governors together for a facilitated review day. Take time to consider the school development plan, reflect on systems and processes, and fine tune next steps. This is a chance to re-group and re-fire. The course provides an opportunity to consider and address typical barriers to school improvement.

- Facilitation ensures leaders can accomplish amazing results through a purposeful and streamlined process.
- Undertake activities designed to assess progress against the school development plan in a way that gets to the nub of issues.
- Facilitated days set out expectations for participants and, through the use of prompts and resources, can bring about insightful conversations regarding current issues, barriers and routes forward.
- Use a range of strategic tools throughout the day in order to reach a consensus on important decisions and fine tune actions.
- The course supports leaders to develop strategic thinking and employ an analytical approach to school improvement that lasts beyond the day.
