

Leading Reading Three full days

This three-day course is a fantastic opportunity to build the necessary expertise to lead reading effectively across the school. Colleagues attending this training have commented on how confident they feel in leading whole school developments and how easy it has been to disseminate the training to others in the school. *Extensive resources are provided.*

Covered within course are a number of themes:

- understanding how reading develops in different key stages;
- setting out a vision for reading in your school;
- selecting texts to inspire and putting together combinations that will give breadth and depth to the curriculum;
- different approaches to using books in the classroom, e.g. designing and delivering whole class reading sessions, developing effective independent reading, utilising group and paired reading structures;
- the 'big 10' reading comprehension strategies - what they are and how to teach them;
- practical activities that can be used with any book;
- questioning and improving the quality of book talk;
- identifying the difficulties pupils experience with comprehension and addressing these problems;
- reading and disadvantaged pupils;
- considering ways to improve pupils' ability to read aloud with confidence, fluency and intonation that shows understanding;
- addressing the demands of the National Curriculum and tests;
- how to effectively lead reading across the school.
