“Vicky is an excellent trainer and has worked with us for several years; both in developing individual leaders but also the work outlined here. Truly exceptional in tailoring to our school, my vision and also the staff rather than just being generic.

Love her!” Headteacher

# TEACHING & LEARNING

“ You have inspired the whole staff and this is just what we needed to kick start the year. ”

## School improvement support

I provide training and support for teachers from a single session to a year-long programme of development. Sessions are designed to inspire colleagues and ensure they are confident to try new approaches and improve standards. Teachers often tell me how they have significantly benefited from reflecting on their practice and developing a deeper understanding of teaching and learning. With practical resources to kick start implementation, improving practice starts immediately.

“Fabulous resources, good themes for group discussions, lots of opportunities to share ideas and a variety of learning tools.”
