

Road to success

Describe your goal:

IMPROVE HISTORY RESULT – By improving outcomes on essay questions

4. Write practice essays and check for two sided arguments.

2. Sometimes I lack a two-sided argument. Make sure I know points from both sides. Use phrases: I partly agree, I agree to a certain extent, however it is possible that, in contrast, on the other hand, however, conversely.

5. Get some feedback on essays and see if there are other aspects to work on. Where arguments are not strong, get advice about what else I could have added.

3. Make sure my notes include a number of points on both sides. Use the text book to make sure my notes are good. Work on organising my notes – perhaps a table would help.

1. Analyse past essay questions. What does feedback tell me? Look at mark scheme and a model answer. How does mine compare?
